PROFESSIONAL SUMMARY

Senior PHP Developer with over 11 years of experience building scalable, secure web applications. Specialized in Laravel, RESTful APIs, and modern frontend integration. Committed to writing clean, maintainable code and optimizing system performance. Familiar with cloud platforms like AWS, Google Cloud, and DigitalOcean, and experienced in collaborating with distributed remote teams.

WORK EXPERIENCE

Sr. PHP Web Developer *(Remote, Contract)*

CM Labs LLC | *May 2021 – May 2025*

- Continued development of Laravel-based job portals built at Crowd Metric, expanding features and optimizing performance across various niche markets
- Developed and maintained scalable APIs for email and push notifications, improving system reliability and user engagement
- Refined queue workers and scheduled jobs to efficiently manage asynchronous tasks such as sending job alerts and transmitting data to external APIs
- Applied clean architecture principles and performance tuning to reduce server load and ensure faster page rendering

Sr. PHP Web Developer

Crowd Metric Solutions, Inc. | *April 2014 – April 2021*

- Contributed to backend development of multiple Laravel-based job portals across different market niches
- Built a centralized push notification API to deliver real-time job alerts
- Developed a dynamic email notification system with customizable templates per brand, powered by an optimized content algorithm
- Scaled the API to handle millions of template requests per day, significantly boosting engagement and deliverability
- Optimized performance by refactoring legacy code into reusable Laravel modules

Junior Web Developer

Onomatopoeia Inc. | *April 2013 – March 2014*

- Maintained and enhanced an Australian coupon platform using CodeIgniter
- Collaborated with senior developers on feature implementation
- Mentored interns and contributed to code reviews
