I am a highly accomplished Information Technology professional with a decade of hands-on experience, demonstrating exceptional expertise in the development of high-quality, scalable, and high-performance web applications. Known for a comprehensive skill set encompassing the entire software development life cycle, from conceptualization and design to implementation and maintenance. Adept at leveraging cutting-edge technologies to deliver innovative solutions that align with business objectives.

WORK EXPERIENCE

Sr. PHP Web Developer *(Remote: Contractual)*
CM Labs LLC / Joblovin LLC / MG Solutions Inc.
May 2021 – Present

- Designed and developed scalable job portals using Laravel, delivering robust, secure, and user-friendly solutions.
- Optimized, maintained, and scaled advanced APIs for email and push notifications, significantly boosting performance, reliability, and user engagement while ensuring seamless integration with other systems.
- Ensured seamless operations during project transitions, maintaining high standards for performance, quality, and client satisfaction while minimizing disruptions and optimizing workflow efficiency.

Sr. PHP Web Developer
Crowd Metric Solutions, Inc.
April 2014 – April 2021

- Led the design and implementation of scalable job portals using the Laravel framework.
- Built APIs for email and push notifications, leveraging best practices to enhance reliability and performance.
- Strengthened expertise in PHP, Laravel, MySQL, and API development, consistently applying innovative approaches.
- Fostered collaboration and problem-solving within cross-functional teams, contributing to seamless project execution and team growth.
- Improved collaborative and problem-solving abilities through team coordination and project execution.

Junior Web Developer
Onomatopoeia Inc.
April 2013 – March 2014

- Contributed to a variety of projects, showcasing a commitment to continuous learning and professional growth.
- Successfully developed, launched, and managed an Australian coupon website using the CodeIgniter PHP framework.
- Mentored and guided On-the-Job Trainees, fostering team collaboration and strengthening leadership capabilities.
- Built a solid foundation in web development and project management through practical experience.
- Enhanced expertise in PHP, MySQL, and CodeIgniter, applying innovative solutions to deliver high-quality results.
